

Material Safety Data Sheet

Naval Company, Inc.

Doylestown, PA 18902-1208 USA

Phone: +1-215-348-8982 Revision 2 ● January 5, 2011

This Material Safety Data Sheet has been prepared in compliance with Federal OSHA Hazard Communication Standard 29 CFR 1910.1200, ANSI Z400.1-1993 and the ISO Safety Data Sheet Standard. This product may be considered to be a hazardous chemical under CFR 1910.1200. This information is required to be disclosed for safety in the workplace. This MSDS is applicable only to the product identified herein and only when used properly.

1. PRODUCT IDENTIFICATION

Trade Name: 45/70 Blank Cartridges (Blank Cartridges for Bridger™ Line Throwing Gun made by Naval Co. Inc.)

Proper DOT Shipping Name: Cartridges, small arms, blank -or- Cartridges for weapons, blank

Identification Number: UN0014

Formula: Not applicable/mixture

DOT hazard Classification: Class 1.4S Explosive, packing group II

CHEMTREC 24-HOUR EMERGENCY NUMBERS

Emergency: 1-800-424-9300 / International: 1-703-527-3887 (collect calls accepted)

2. INGREDIENTS AND COMPOSITION

Principal Hazardous Component Ingredient	Percent %	ACGIH TLV Threshold Limit	OSHA PEL
Potassium Nitrate ¹	38-42%	N/E*	N/E
Sodium Nitrate ¹	38-42%	N/E*	N/E
Charcoal	3-10%	N/E	N/E
Sulphur	4-11%	N/E	N/E
Graphite	trace	15 mppct (TWA)	2.5mg/m^2
Empty unprimed brass shell	25-40%		_
Wad, vegetable fiber	3-6%		
Primer	1-5%		

¹These cartridges contain either potassium nitrate *or* sodium nitrate in the percentages indicated. These cartridges *do not contain both*.

OSHA Threshold Limit Value

3. HEALTH HAZARDS

	6. H=/t= H H/t=/tk26
	FFG Black Powder is an explosive, and detonation may cause severe physical injury, including death. All explosives are dangerous and must be handled carefully and used following approved safety procedures under the direction of competent, experienced persons in accordance with all applicable federal, state, and local laws, regulations, and ordinances.
•	None of the components of black powder are listed as a carcinogen by NTP, IARC, or OSHA.
Symptoms of Exposure	N/A
Medical Conditions Aggravated by Exposure	e N/A
Primary Route of Entry	N/A
ACGIH Threshold Limit Value	N/A

N/A

^{*}NE = Not established.

4. HAZARDS IDENTIFICATION

HAZARD CLASS: Division **1.4S** - Articles and substances presenting no significant hazard.

Flash Point (°F) N/A

Flammable Limits N/A

Auto Ignition Temperature Approximately 200°C-464°C (392°F-867°F)

Explosives Temps (5 Sec) – Ignited Approximately 427°C (801°F)

Velocity In the open, trains of black powder usually burn very slowly, measurable in seconds per foot. Confined, as in steel pipe, speeds of explosions have been times at values from 560 feet per second for very coarse granulations to 2.070 feet per second for finer granulations. Confinement and granulation will affect the values.

5. FIRST AID

Eyes: Not a likely route of exposure. Flush eyes with water.

Skin: Not a likely route of exposure. Wash skin with soap and water.

Ingestion: Not a likely route of exposure. If ingested, induce vomiting immediately by giving two

glasses of water and sticking finger down throat.

Inhalation: Not a likely route of exposure.

A very small amount of inhalable particles may be created when cartridge is fired.

INJURY FROM DETONATION: Seek prompt medical attention!

6. FIRE FIGHTING and EXPLOSION HAZARD DATA

Flash Point (°F) N/A
Flammable Limits N/A

Special Fire Fighting Procedures DO NOT FIGHT FIRES

Unusual Fire & Explosion Hazards DO NOT FIGHT FIRES. Black powder may deflagrate or explode in a fire while

confined. EVACUATE AREA.

Extinguishing Media WATER

Special Fire Fighting Procedures DO NOT FIGHT FIRES! Prevent fire from reaching explosives. Guard against

intruders.

Hazard Class: 1.4S Explosive, packing group II

Articles and substances presenting no significant hazard.

7. ACCIDENTAL SPILL or LEAK PROCEDURES

Spill/Leak Response Encapsulated in the shell, this is unlikely to be a concern. However, in case ANY powder is exposed or

there is a threat of instability in the area, use appropriate personal protective equipment. Isolate areas and remove sources of friction, impact, heat, low level electric current, electrostatic or RF energy. Only

competent, experienced persons should be involved in clean-up procedures.

Waste Disposal Carefully pick up spills with non-sparking and non-static producing tools. Desensitize exposed powder by

diluting in water. Dispose of in compliance with federal regulations under the authority of the Resource

Conservation and Recovery Act (40 CFR Parts 260-271)

8. SPECIAL PRECAUTIONS

Hygienic Practices in Handling and Storage:

Wear only metal free and non-static producing clothes. Impervious rubber gloves are recommended.

Wash hands and shower after handling.

Precautions for Repair and Maintenance of Contaminated Equipment:

Affected equipment must be thoroughly water cleaned before attempting repairs. Use only non-sparking tools.

Other Precautions:

NO SMOKING.

Store in cool, dry place.

Keep away from friction, impact, heat, and open flame.

Use only non-sparking tools when working with or around blank cartridges

Shelf Life: 25-30 years

Incompatible Materials for Storage or Transport: Class A & B explosives, strong oxidizers and/or acids

9. SPECIAL PROTECTION and EXPOSURE CONTROL

Ventilation Use only with adequate ventilation.

Respiratory Ventilation is not required in open, unconfined areas.

Eye None

Gloves Impervious rubber gloves

Other Metal free and non-static producing clothes when handling

10. PHYSICAL DATA

 $\begin{array}{lll} \mbox{Boiling Point (°F)} & \mbox{N/A} \\ \mbox{Vapor Pressure (mm Hg.)} & \mbox{N/A} \\ \mbox{Vapor Density (Air = 1)} & \mbox{N/A} \\ \mbox{Solubility in Water} & \mbox{Good} \\ \end{array}$

Specific Gravity 1.70 – 1.82(mercury method) 1.92-2.08 (pycnometer)

PH 6.0 - 8.0 Evaporation rate N/A

Appearance and Odor Sealed blank brass cartridge (cylindrical tube) contains black granular powder. No detectable odor.

11. STABILITY and REACTIVITY

Stability Stable

Hazardous Polymerization Will not occur

Conditions to Avoid Keep away from heat, sparks, and open flame.

Avoid impact, friction, and static electricity.

Materials to Avoid N/A
Conditions to Avoid N/A

 $\begin{array}{ll} \text{Flash Point (°F)} & \text{N/A} \\ \text{Flammable Limits} & \text{N/A} \end{array}$

Auto Ignition Temperature Approximately 200°C-464°C (392°F-867°F)

Explosives Temps (5 Sec) – Ignited Approximately 427°C (801°F)

Incompatible Materials for Storage or Transport: Class A & B explosives, strong oxidizers, and acids

12. TOXICOLOGICAL INFORMATION

Skin: LD50 not determined Ingestion: LD50 not determined LD50 not determined LD50 not determined

Chronic/carcenogenicity: Not carcinogenic per ACGH, OSHA, IARC, and NTP

13. ECOLOGICAL / ENVIRONMENTAL PROTECTION PROCEDURES

Carefully pick up spills with non-sparking and non-static producing tools. Supervision only by a person

knowledgeable in explosives. See XIII. Disposal Considerations.

14. DISPOSAL CONSIDERATIONS

Waste Disposal: Carefully pick up spills with non-sparking and non-static producing tools. Desensitize exposed powder by diluting in water. Water will dissolve out the potassium nitrate. By leaching out the potassium nitrate, the residue of sulfur and charcoal is non-explosive, but combustible – dispose separately. Dispose of in compliance with federal regulations under the authority of the Resource Conservation and Recovery Act (40 CFR Parts 260-271)

15. TRANSPORTATION INFORMATION

ICAO / IATA ERG CODE: 3L This material is regulated as a DOT HAZARDOUS MATERIAL.

DOT (USA) ERG # 114 UN Number UN0014

LABEL: 1.4S (exception: ORM-D ground) Proper Shipping Name Cartridges, small arms, blank

Hazard Class 1.4S Freight Class 85

DOT label & Placard None required for ground, Use DOT 1.4S for Air shipments

Packing Group

Spec Box

Reportable quantity: Not applicable (Per 49 CFR 172.101, Appendix)

The material described above is subject to the U. S. DOT HAZARDOUS MATERIALS REGULATIONS via the modes and packaging quantities indicated below with the letter "X":

	MODE	PACKAGINO	PACKAGING QUANTITIES			
X	Rail	Bulk	X	Non-Bulk		
X	Motor	Bulk	X	Non-Bulk		
X	Water	Bulk	X	Non-Bulk		
X	Air	Bulk	X	Non-Bulk		

The applicable packaging sections in 49 CFR are 173.63 and 173.62 or in IATA Packing Instructions 130. Truck driver must have a current ERG in their truck when transporting any dangerous goods / hazardous materials. DO NOT COVER marking and labeling on boxes when transporting!

16. REGULATIONS

1.4S label required for all AIR or ground "Hazmat" shipments of this item. The applicable packaging sections in 49 CFR are 173.63 and 173.62 or in IATA Packing Instructions 130. Notice state and carrier variations. May be reclassed as an **ORM-D** for ground shipments in the USA only - no label required for ORM-D shipments of this item. Packages going by passenger aircraft may not exceed 25 Kg net or 100 Kg for cargo aircraft only. NO ORM-D AIR! See both CFR-49 and IATA regulations for all air shipments.

17. OTHER

A copy of this MSDS is available at http://www.navalcompany.com/msds.pdf

THE INFORMATION IN THIS MATERIAL SAFETY DATA SHEET SHOULD BE PROVIDED TO ALL WHO WILL USE, HANDLE, STORE, TRANSPORT, OR OTHERWISE BE EXPOSED TO THIS PRODUCT. THIS INFORMATION HAS BEEN PREPARED FOR THE GUIDANCE OF PLANT ENGINEERING, OPERATIONS, AND MANAGEMNT, AND FOR PERSONS WORKING WITH OR HANDLING THIS PRODUCT. NAVAL COMPANY INC. BELIEVES THIS INFORMATION TO BE RELIABLE AND UP TO DATE AS OF THE DATE OF PUBLICATION, BUT MAKES NO WARRANTY THAT IT IS. ADDITIONALLY, IF THIS MATERIAL SAFETY DATA SHEET IS MORE THAN THREE YEARS OLD, YOU SHOULD CONTACT NAVAL COMPANY INC. AT THE PHONE NUMBER LISTED BELOW TO MAKE CERTAIN THAT THIS MSDS IS CURRENT.
