

Bridger™ Line Throwing Gun

2010 DIGITAL PHOTO CONTEST (photos or video)

DEADLINE: September 30, 2010

Naval Company Inc is looking for fresh, technically current photos of various line gun applications and is therefore presenting this photo contest. There will be one category including two options, unless there are more than 15 entrants, then the Digital photos and video will become two separate categories, each capable of winning: Digital photo and video. The person or company who provides the **"BEST digital PHOTO, series of photos or 1-minute VIDEO clip of a BRIDGER™ LINE THROWING GUN in use"** that can be used by Naval Company Inc in a PowerPoint® for training, on their website or elsewhere, will win a **\$500 CREDIT** toward the purchase of a **CG85PEL, Bridger™ Line Throwing Gun kit in a Pelican® Case**, or **50% OFF** the retail price of one order of supplies, excluding a complete kit and not exceeding \$1500 - whichever you choose. Individuals not interested in credit toward a purchase of line gun supplies are eligible to win \$200 cash. Please understand there will only be no more than one winner for each category. In 2009, we had less than 10 entrants – if that gives you an idea of your odds! Your odds of winning are excellent! We will acknowledge on our website those who contributed and announce the winner as soon as one has been determined.

RULES, REGULATIONS and CRITERIA: Contest entries must include completed entry form. Any Bridger™ Line Throwing Gun owner, dealer, want-to-be owner or *individual may enter photos. Photos must be digital, of high quality, in .jpg format, and in some way apply to use of a Bridger™ Line Throwing Gun; the more interesting the photo, the better. There is no limit to the number of photos you can submit on one entry, however, each individual may only submit one entry. The winning photo or video must be of quality suitable for use in a PowerPoint or on the website. Photos may be altered to include remarks or include other marks to aid in instruction or understanding provided the unaltered photos are additionally included. An alternative option for entry would be a digital video of 5 minutes or longer in length showing successful use of the Bridger™ Line Throwing Gun in a rescue or function of value. This video must be suitable for application on a DVD and/or the internet. If you already have a video that could be entered but isn't long enough. Add an interview with the person who facilitated the line throwing gun success and/or a person who was rescued or valued from its' use.

Types of photos or videos needed: Line construction; ice rescue; mud rescue; whitewater steep creek applications; lowhead dam rescue, tug to ship; drilling rig to ship; deep ravine; river or flood rescue; utility company applications; oil spill clean-up, bridge applications; safe storage photos; unusual applications (i.e...ham radio antenna building, zip line construction); challenges where it could be dangerous to use the Bridger and notations why; success stories of the past with photo of the survivor and rescuers, etc. We are sure you have the best ideas of what would be of value. Or, if it is artistic and interesting... your entire line gun crew proudly displaying the Bridger Line Gun.

Authorization/Release: I hereby acknowledge that (I / my company) took the photos and I am authorized to give you permission to use them, hereby transfer ownership and copyright privileges to Naval Company Inc. I agree that the photos emailed and/or on the enclosed disc may be used by NAVAL COMPANY, INC., the manufacture of the Bridger™ Line Gun Kit, and/or their assigns for use in training materials, a PowerPoint® training presentation, and/or any means of marketing. Our company, or I, would like recognition for these photos if used in a PowerPoint® training presentation as noted below. Use in other applications would not require recognition unless you note otherwise in the comments. Our company would NOT like recognition for these photos (**put a line through the sentence in this paragraph that does not apply and authorize with your initial next to the line you eliminate**).

Submission: Submit .jpg images on a disc along with your entry form to **Naval Company Inc. c/o M. Meininger, PO Box 907, Buckingham, PA 18912-0907**, or mail your entry form and email your .jpg images with all info that is also written on your entry form to info@navalcompany.com. If mailing, Naval Company Inc is not responsible for entries that are lost, late, delayed, damaged, or incomplete. Be sure that you have a back-up copy of all photos, that your disc is well-protected and that you have enough postage on your mailer. Call if you have questions. Thank you. **We wish you successful shooting!**

Please provide us a copy of the PowerPoint® training, when available. Our information is as follows (required for entry):
